

## Major Modification Granted for Scepter, Inc. Landfill Facility

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has issued a solid waste disposal facility permit for a major modification to Scepter, Inc. The facility, identified as IDL430000078, is located in Humphreys County at 1485 Scepter Lane, Waverly, Tennessee.

This permit authorizes construction, operation, and closure of a fully-permitted lateral expansion to the existing disposal facility resulting in 38.4 total acres to be used for the disposal of industrial waste generated from secondary aluminum processing at Scepter's Waverly, Tennessee operations.

DSWM made the draft of this permit available for review during a 45-day public comment period which ended June 11, 2018. A public hearing was also held on May 23, 2018 to receive comments concerning the modifications proposed. No members of the general public were in attendance at the time specified for the hearing to begin nor did they arrive after a reasonable wait, so the hearing was adjourned. DSWM received no oral or written comments during the above mentioned public comment period.

The final permit is posted online. Visit [tn.gov/environment/notices/scepter](http://tn.gov/environment/notices/scepter) to access the facility information in the Dataviewer. Three locations also have copies available for review:

DSWM Central Office
